

density railroads using the preliminary assessment rate and developed under step 1 and (C) dividing the resulting amount by the total road miles reported to FRA by all railroads except light density railroads. The incremental amount is then added to the preliminary assessment rate for all railroads except light density railroads to derive the assessment rate per road mile for all railroads except light density railroads. The results will be a modified assessment rate per road mile for light density railroads qualifying under step 2 and a general assessment rate applicable to all other railroads. In those cases where the computed fee is less than the defined minimum, the net increase attributable to the application of the minimum standard is not included in the reallocation process under step 3 and is instead added to total collections.

(b) The user fee to be paid by each covered railroad is the greater of \$500.00 or the sum of the railroad's train miles times the assessment rate per train mile, the railroad's employee hours times the assessment rate per employee hour, and the railroad's road miles times the applicable assessment rate per road mile.

Subpart D—Collection Procedures and Duty to Pay

§ 245.301 Collection procedures.

(a) After March 15th of each year (August 15th for the fiscal year ending September 30, 1992), FRA will publish in the FEDERAL REGISTER a notice containing FRA's preliminary estimates of the total user fee to be collected, the assessment rate per train mile, the assessment rate per employee hour, and the assessment rate per road mile (as adjusted by the sliding scale). The information published by FRA will be sufficient to enable each railroad to calculate its estimated user fee bill for the fiscal year on the basis of the train mile, employee hour, and road mile information provided by the railroad to FRA.

(b) After June 1st of each year, (August 15th for the fiscal year ending September 30, 1992), FRA will provide to each covered railroad a notice (the "Assessment Notice") containing

FRA's final calculations of the total user fee to be collected, the assessment rate per train mile, the assessment rate per employee hour, the assessment rate per road mile (as adjusted by the sliding scale), the train miles, employee hours, and road miles for the railroad for the prior calendar year, the user fee to be paid by the railroad, and a statement and payment record form. FRA will mail the Assessment Notice sufficiently in advance of the end of the fiscal year in order to allow all collections to be completed prior to the end of the fiscal year. FRA will mail the Assessment Notice to the billing address designated by the railroad on FRA Form 6180.91—Annual Report of Railroads Subject to User Fees.

§ 245.303 Duty to pay.

(a) Beginning in the fiscal year ending September 30, 1991, each railroad subject to this part shall pay an annual railroad user fee to the FRA. Payment in full shall be received by FRA no later than thirty days after the Assessment Notice is mailed. Payment is made only when received by FRA. Payments in excess of ten thousand dollars (\$10,000.00) shall be made by wire transfer through the Federal Reserve communications, commonly known as Fedwire, to the account of the U.S. Treasury in accordance with the instructions provided in the Assessment Notice. Payments of ten thousand dollars or less shall be by check or money order payable to the Federal Railroad Administration. The payment shall be identified as the railroad's user fee by noting it with the User Fee Bill Number as assigned by FRA and by returning the payment record received with the Assessment Notice. Payment shall be sent to the address stated in the assessment notice. Any railroad making an aggregate payment for one or more subsidiaries or affiliates should return the payment records for each and list all applicable Bill Numbers with the payment.

(b) The responsibility for paying the user fee rests with the responsible entity (see § 245.5(h)). Parties involved in purchase and sale transactions of railroad(s) or portions of a railroad shall be responsible for allocating the user fee amongst the interested entities in
